INTRODUCTION

The Directory of Resources for Older Persons was developed to provide information that will help foster a closer collaboration among various individuals and networks that serve the Nation's elderly. It also enhances the purposes of the Adult Education Act, as amended by the National Literacy Act of 1991, which addresses the educational needs of adults 16 years of age and older who lack a high school diploma. A special provision of the Act seeks to expand educational opportunities for the aging population by emphasizing functional competency and grade level progression, from the lowest literacy level, through English as a second language instruction, and attaining the General Educational Development (GED) certificate. Of the approximately 3.7 million adults served by this Federally funded program annually, over 216,000 are 60 years of age or older.

The directory describes selected resources available in 7 Federal Agencies and 31 National and Local Organizations which deal with the special needs and interests of older persons. Services and information are provided in the areas of: literacy education, legal rights advocacy, housing, health, retirement, personal enrichment, nutrition, transportation, and volunteerism.

Under each organization heading, the address, telephone number and a short description of the project are provided. This information may be helpful to those seeking assistance for the elderly.

Additional copies of this directory may be obtained by contacting the U.S. Department of Education, Division of Adult Education and Literacy Clearinghouse. The mailing address and FactsLine information for ordering the directory are provided on page 5.

The Corporation for National Service offers opportunities for Americans of all ages and backgrounds to make their communities safer, healthier and stronger through service. The Corporation oversees the National Senior Service Corps, AmeriCorps (the domestic Peace Corps) and Learn and Serve America programs for students.

The National Senior Service Corps is a network of federally-supported programs that helps people age 55 and older find service opportunities in their home communities. It involves seniors in three types of service: Foster Grandparents, Senior Companions and Retired and Senior Volunteers. Together, these programs involve over one half million seniors serving in tens of thousands of sites across the country. Services provided for these programs are listed as follows:

The Foster Grandparent Program

This program offers seniors age 60 and older opportunities to serve as mentors, tutors, and care givers for children and youth with special needs. They serve in community organizations such as schools, hospitals and youth centers.

Foster Grandparents offer emotional support to children who have been abused and neglected, mentor troubled teenagers and young mothers, and care for premature infants and children with physical disabilities. In the process, they strengthen communities by providing youth services that community budgets cannot afford and by building bridges across generations. Foster Grandparents meet income eligibility requirements, serve 20 hours per week and receive small stipends.

The Senior Companion Program

Through the Senior Companion Program, people age 60 and older provide assistance and friendship to elderly individuals who are homebound and, generally, living alone. By taking care of simple chores, providing transportation to medical

(The Senior Companion Program, Continued)

appointments, and offering contact to the outside world, Senior Companions often provide the essential services that prevent older Americans from having to enter nursing homes. They also provide respite care to relieve live-in caretakers for short periods of time.

Senior Companions not only assist the frail elderly with chores and errands, they also help make the lives of the people they serve less lonely. Many Senior Companions serve individuals for several years and form the most meaningful friendships in their lives.

Senior Companions usually serve two to four clients, providing 20 hours of weekly service. They meet income eligibility requirements and receive small stipends.

The Retired and Senior Volunteer Program (RSVP)

This program helps people age 55 and older find services opportunities in their communities. RSVP participants serve from a few to over forty hours a week, providing hundreds of services in organizations that range from education centers to police departments to hospitals. RSVP involves seniors in service that matches their personal interests and makes use of their skills and life experiences. Their wide range of services include tutoring youth, serving as citizen patrols for local police departments, planning community gardens, helping other seniors complete income tax forms and serving as hospital aides.

1995 White House Conference on Aging

The 1995 White House Conference on Aging (WHCoA) was initiated at the Federal level by President Clinton. The purpose was to develop policy recommendations for the 21st century. This was the fourth decennial conference in history, the first under a Democratic President and the last of the twentieth century. It was authorized by the 1992 Amendments to the Older Americans Act and was officially called by the President on February 17, 1994. A report entitled, **The Road to an Aging Policy for the 21st Century**, based upon the resolutions adopted at the conference was developed. The report represents a composite of the entire bi-partisan White House Conference on Aging process which involved more than 1000 regional, state and local level grass roots events and a three day national conference that was held in May of 1995. It calls for an intergenerational aging policy that ensures a continuing solvency in the Social Security system, endorses a greater investment into aging research, and embodies greater sensitivity to the nation's diversity.

An Executive Summary of the report may be obtained by contacting the **National Aging Information Center**, 500 E Street, S.W., Suite 910, Washington, D.C. 20024; (202) 554-9800.
